

2016  
**A Guide for Future  
International Students**

Be confident  
Be innovative  
Be transformative

**Be true to you**

Melbourne, Australia

## Welcome from the Vice-Chancellor

RMIT is a global university of technology and design, and Australia's largest and most internationalised university.

Our focus on transforming the future for people and their environments is evident in our outcome-orientated research and practical education.

With three campuses in Melbourne, Australia, two campuses in Vietnam, a centre in Barcelona, and teaching and partnerships on every continent, RMIT is a truly global university.

We offer doctoral, postgraduate, undergraduate and vocational programs, enabling students to connect to industry through work-integrated learning. Our curriculum is collaboratively designed to equip students with the knowledge and skills necessary to thrive in the workplace and to meet the changing needs of business and the wider community.

Preparing graduates for global opportunities is vital. Our student mobility programs are wide in scope and encourage students to craft their own path to professional and personal success. RMIT graduates are currently employed in over 100 countries; this is a testament to our global reach as a university.

The outlook for RMIT students is bright, full of innovation and creativity. We look forward to welcoming you to our vibrant and diverse student community.

Martin Bean CBE  
Vice-Chancellor and President  
RMIT University

## Global

RMIT has campuses in Australia and Vietnam, as well as a centre in Barcelona, Spain, and has exchange partnerships with over 150 partners across 41 countries. Many programs offer a semester abroad, short-term study tours and international research projects. RMIT is recognised as one of the most internationally diverse universities in the world. With an international student population of approximately 26,000 from over 100 countries, the RMIT experience is both educationally and culturally enriching.

## Urban

RMIT is focused on creating solutions that transform the future. Each campus is located in an urban setting and offers state-of-the-art technology and facilities.

## Connected

RMIT is connected to industry worldwide, with companies such as Rolls-Royce, Siemens, Abercrombie and Fitch, IBM, L'Oréal, Country Road, City of Melbourne, Maxwell Williams, Baulderstone Hornibrook, Deloitte and Alcoa as valued partners. This real-world focus allows you to access clinical and industry experience in Australia and abroad, fostering a learning environment that is creative and engaging.

We offer 400+ programs from vocational study through to research, plus a range of pre-university pathways to provide flexible entry opportunities. Read more about RMIT pathways on page 67.

“RMIT International Industry Experience and Research Program (RIIERP) gives an outstanding opportunity to acquire skills that will enable you, as graduates, to contribute significantly in your career and work as professionals in a globalised world.”

Professor Sylvester Abanteriba  
Director and Founder of RIIERP

Your introduction to RMIT  
[www.tinyurl.com/RMIT-University](http://www.tinyurl.com/RMIT-University)

# ● Industry Connected

RMIT's industry partners provide opportunities for meaningful, hands-on learning experiences.

Learn from innovative world leaders in your chosen field and gain connections to help you find the right job when you graduate.

Practical work opportunities help you to build a global career. RMIT offers:

- work placements from three to 12 months
- collaborative projects with organisations
- networking with industry leaders
- purpose-built studios, clinics and labs.

RMIT students have undertaken placements with:

Adidas, Airbus, AUDI, Bayer, BMW, Boeing, Bosch, Nestlé, Volkswagen, United Nations, Kit Cosmetics, Smiggle, KPMG, Epworth Hospital, Nanjing University of Chinese Medicine (China), Ericsson and Lufthansa.

- After you complete a bachelor, masters or PhD in Australia, you may be eligible for a temporary graduate visa that allows you to remain in Australia to work for two years, and in some cases longer.

[www.immi.gov.au/Study/Pages/study-work-arrangements.aspx](http://www.immi.gov.au/Study/Pages/study-work-arrangements.aspx)

- RMIT hosts events such as Global Career Week, Entrepreneurship Week and the Experience Fair, which offer opportunities for you to meet employers and build links with people working in your industry.

[www.rmit.edu.au/careers](http://www.rmit.edu.au/careers)

- RMIT's inventive programs are the key to unlocking future employment.

Mark Buzza completed the MBA (Executive) and is now the Program Manager for the Global Action Plan at the Movember Foundation. Listen to his story.

[www.tinyurl.com/RMIT-MarkBuzza](http://www.tinyurl.com/RMIT-MarkBuzza)

- **Nita Wiroonsup**  
Bachelor of Engineering  
(Aerospace Engineering)

"I undertook an internship at EADS Astrium Space Transportation in Bremen, Germany for nine months. During this time I got to work on multiple projects related to the topic I love – rocket science.

"Most importantly, the intership allowed me to access RMIT's global network. The industry connections I made are opening doors to career opportunities I would never have dreamed possible."

**Zechen Su**  
Bachelor of Arts (Music Industry)

“RMIT provides the platform for students to be creative and it’s truly multicultural. I am now participating in the Alumni Mentoring Program. RMIT has paired me with a great mentor who graduated from RMIT and is now based in Hong Kong.”

# ● Global Opportunities

Studying abroad is a life-changing experience. You could find yourself wandering New York’s city blocks, exploring the Amazon or admiring historic Spanish architecture. Increase your cultural awareness and make friends from all around the world with RMIT’s exchange programs.

[www.rmit.edu.au/globalpassport/educationabroad](http://www.rmit.edu.au/globalpassport/educationabroad)

- Expand your academic horizons through:
    - semester exchanges with over 150 partners across 41 countries
    - group study tours of up to one month to Europe, Asia and the Americas
    - global Alumni Mentoring Program
    - study at RMIT Vietnam – Ho Chi Minh City or Hanoi campuses
    - internships through the RMIT International Industry Experience and Research Program (RIIERP).
- [www.rmit.edu.au/RIIERP](http://www.rmit.edu.au/RIIERP)

# ● Our Campuses

## RMIT's campuses offer cutting-edge facilities in urban environments

Study in a location that inspires you:

- Melbourne City, Brunswick and Bundoora campuses, Australia
- Hanoi and Ho Chi Minh City campuses, Vietnam
- Centre in Barcelona, Spain

RMIT's Swanston Academic Building (SAB) features a leading urban design, with a 5-star Green Star rating. The sustainability features in SAB improve user comfort, resulting in higher quality learning outcomes, student engagement and space use at an unprecedented level.

RMIT's Design Hub was developed to support and expand the University's position as an internationally renowned leader in design education and research. It provides facilities and a research base for RMIT's range of diverse design initiatives, design research groups and postgraduate programs.

### Bundoora campus

Plenty Road  
Bundoora, Victoria 3083  
6910 students

The suburb of Bundoora houses many of RMIT's engineering, health and medical sciences programs. Large open spaces and tree-lined grounds provide an environment that energises. The campus features a purpose-built health and medical science laboratory, as well as sporting facilities that include a FIFA-approved soccer pitch, a football oval, an athletics track, and tennis and netball courts.

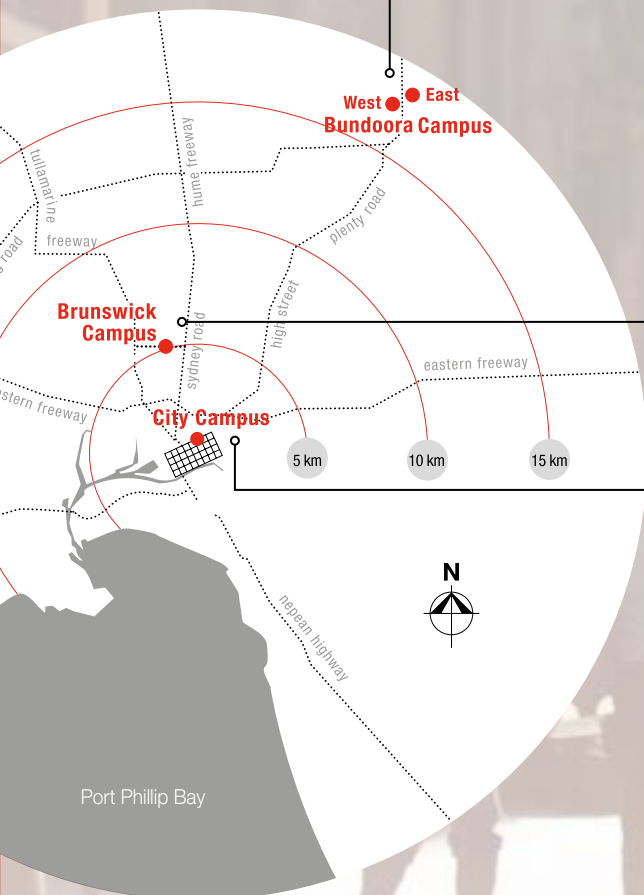

### FlipKey Award Winner

RMIT is one of the top universities worth travelling abroad for.

[www.flipkey.com/blog/2014/08/26/top-universities-abroad-worth-traveling-for/](http://www.flipkey.com/blog/2014/08/26/top-universities-abroad-worth-traveling-for/)

### Brunswick campus

25 Dawson Street  
Brunswick, Victoria 3056  
2176 students

Located on the thriving outskirts of the central business district, Brunswick attracts Melbourne's emerging artists, fashion designers and musicians. This bohemian enclave is dotted with cafes, thrift stores, bars and markets, making for a lively scene both day and night.

In 2014 RMIT invested AU\$7 million on redeveloping facilities at the Brunswick campus, creating Melbourne's new Fashion Hub for education and research.

The campus is home to many of RMIT's design-related programs, including fashion design and technology, textile design, fashion merchandising, product development and graphic design.

### Melbourne City campus

124 La Trobe Street  
Melbourne, Victoria 3000  
47,098 students

RMIT's main campus is located in the heart of the Melbourne CBD. The Swanston Academic Building, together with RMIT's Design Hub, showcase the University's AU\$700 million investment in leading educational facilities.

You will have access to the best the city has to offer – restaurants, fashion boutiques, cafe-filled laneways, bars, art galleries and parks. There are many opportunities for you to find part-time work in the city centre. Nearby Melbourne Central Station connects you with every suburb in Melbourne via a comprehensive train network. Trams are also very convenient as they stop right at the front door.

# ● Live in Melbourne

## The world's most liveable city

In 2014, The Economic Intelligence Unit's annual survey voted Melbourne as the world's most liveable city for the fourth consecutive year. This recognition comes as no surprise to Melbourne residents who enjoy an enviable lifestyle in a city bursting with urban charm.

Melbourne is the capital of the state of Victoria and the second largest city in Australia. With a population of 4.25 million, multiculturalism defines life in the city and its appeal is undeniable. Explore Chinatown, Little Italy, the Greek Quarter and the Latin flavours of Johnston Street which fuel the city with a characteristic energy.

Getting around Melbourne by public transport is easy. Melbourne's distinctive tram network, trains and buses allow you to navigate the city safely from morning to night. You will be drawn to the laneways that wind throughout the city, discovering the best cafes, music and fashion that Australia has to offer.

Melbourne is a spirited hub of art and culture, and also plays host to some of the world's biggest sporting events. The city's social calendar is full all year round, so whether it is a festival, concert or sporting event you are after, Melbourne has it covered.

View Melbourne sights and surrounds

**Jia Jiet Chew**  
Bachelor of Applied Science  
(Medical Radiations)

"Walking past every restaurant in Hardware Lane is like travelling around the world in just 20 minutes."

**Rachel Chuang**  
Exchange

"My favourite sunbathing spot is the lawn in front of the State Library."

**Shuway Lee**  
Bachelor of Business (Logistics and Supply Chain Management)

"Melbourne has been great to me and has welcomed me with open arms."

**Felipe Panameno**  
Master of Biotechnology (Food Science and Technology)

"The city is full of culture, sports, music, and beautiful things. Melbourne is awesome!"

**Joao Schiavinato**  
Exchange

"All the laneways, cafes, restaurants, shops and beautiful architecture really grabbed my attention."

- #1 Most Liveable City<sup>1</sup>
- #1 Ultimate Sports City<sup>2</sup>
- #1 Friendliest City<sup>3</sup>
- #1 of 7 UNESCO Cities of Literature<sup>4</sup>
- #2 Best Student City<sup>5</sup>

St Kilda Beach.

The State Library of Victoria located across from the RMIT City campus.

Alleyway cafes in Degraes Street, Melbourne.

Federation Square is a public space that can hold 15,000 people.

## Melbourne welcomes international students

- International Student Welcome Desk

The City of Melbourne provides international students with vital information upon arrival at Melbourne Airport.

- The New Study Melbourne Student Centre (SMSC)

A “one-stop shop” where international students in Victoria can access a range of free support, information and welfare services. The SMSC is located at 599 Little Bourke Street, Melbourne.

# ● Accommodation

## Your home away from home

One of the biggest decisions you'll make after deciding to move to Melbourne is where to live. RMIT is here to support you with accommodation assistance to make the choice a simple one. Our accommodation database is designed exclusively for RMIT students so that you can search for different types of housing, including homestay, private rental accommodation and student apartments near your campus. RMIT Student Wellbeing Advisors are available on every campus to discuss your housing needs.

[www.rmit.edu.au/accommodation](http://www.rmit.edu.au/accommodation)

There are several student apartment complexes close to RMIT campuses:

RMIT Village  
[www.rmitvillage.com.au](http://www.rmitvillage.com.au)

Urbanest  
[www.urbanest.com.au](http://www.urbanest.com.au)

Le Student 8  
[www.lestudent8.com](http://www.lestudent8.com)

### Cost of Living

To help you understand the cost of relocating to Melbourne we have developed a helpful student budget guideline. Prices will vary according to your lifestyle and choice of accommodation. It is more expensive to live on your own than to share with others.

#### Weekly expenses

Rent (shared)	City: AU\$200 – 300 Brunswick: AU\$150 – 250 Bundoora: AU\$120 – 200
Electricity, gas and water	AU\$40 – 100
Food	AU\$80 – 150
Phone and internet	AU\$20 – 50
Public transport	up to AU\$40
Entertainment	AU\$50 – 100
<b>Estimated weekly total</b>	<b>AU\$290 – 750</b>

### Set Up Costs

You will need to allow AU\$3000 – 5000 to cover establishment expenses such as bond payment, rent in advance, furniture and household items. Some student apartments come fully furnished but private rental accommodation often does not.

### Arrival

RMIT offers a free airport pickup service to newly arriving international students.

RMIT staff can book temporary accommodation or homestay to help with your arrival.

[www.rmit.edu.au/students/arrival-guide](http://www.rmit.edu.au/students/arrival-guide)

- It is free to travel by tram in Melbourne's city centre. Find a map of the free travel zone on the back cover of this guide.

International students studying full-time undergraduate or higher vocational programs may also be eligible for discounted public transport tickets for travel on trains, trams and buses.

[www.ptv.vic.gov.au/tickets/concessions/international-students/](http://www.ptv.vic.gov.au/tickets/concessions/international-students/)

- If you have a student visa, you are able to work up to 40 hours per fortnight during semester and unlimited hours during semester break.

[www.immi.gov.au/students/students/working\\_while\\_studying/](http://www.immi.gov.au/students/students/working_while_studying/)

### ● Are you bringing your family?

The Department of Immigration and Border Protection recommends that you budget your living costs according to the following annual rates:

- You – AU\$18,610
- Your partner – AU\$6515
- Your first child – AU\$3720
- Every other child – AU\$2790

You may be requested to provide evidence of these funds to receive a student visa.

## Shape your future

If you are a high-achieving student who strives to shape your future, then RMIT's scholarships may be for you.

RMIT offers scholarships to current and commencing international students across all fields and levels of study. Scholarships include financial support, rewards for academic excellence and full scholarships for research students.

Access a complete list of current scholarships at [www1.rmit.edu.au/scholarships/international](http://www1.rmit.edu.au/scholarships/international).

### RMIT PhD International Scholarships (RPIS)

These scholarships are awarded to international students undertaking research doctoral degrees on the basis of academic excellence and research potential. The scholarship covers tuition fees, the cost of Overseas Student Health Cover (OSHC), a stipend, relocation allowance, an allowance for the cost of producing a thesis and paid sick, maternity and parental leave (within the limits of the Scholarship Guidelines).

### International Postgraduate Research Scholarship (IPRS)

International students commencing a higher degree research (master or PhD) at RMIT can apply for the IPRS, which may cover your tuition fees for up to three years, with the possibility of extension.

### Foundation Studies Scholarships

Each year, RMIT awards a number of scholarships valued at AU\$4000 for Foundation Studies students. The scholarships are awarded on the basis of academic merit and personal achievement and are open to students from all countries.

### Australia Awards

These prestigious international scholarships and fellowships are funded by the Australian Government and could financially support you in your journey to become an RMIT student. The values vary but often cover full tuition fees, a stipend, Introductory Academic Program, Overseas Student Health Cover (OSHC) and other expenses. For more information check [www.australiaawards.gov.au](http://www.australiaawards.gov.au).

RMIT also works with sponsoring organisations to provide undergraduate and postgraduate programs to nominated students. An external organisation, such as a university or government agency, may pay your tuition fees, and in some cases provide a financial guarantee for you.

[www.rmit.edu.au/international/sponsorships](http://www.rmit.edu.au/international/sponsorships)

**Maria Fernanda Gonzales Larrain**  
Master of International Development  
Recipient of Australia Awards Scholarship

"My studies provide me both theoretical and practical knowledge that I will use in my professional career. My master program is also helping me to develop research skills and increase my critical thinking."

**Jigme Nidup**  
PhD (Economics, Finance and Marketing)  
Recipient of RMIT International PhD Scholarship

"I have no words to express my gratitude to RMIT for providing me with the scholarship, without which my dream of obtaining a PhD degree would have remained a dream."

# ● Get Involved

## There is always something happening at RMIT

We encourage you to become part of our vibrant university community. Balance your studies with social, cultural, sporting and recreational activities.

[www.rmit.edu.au/life/social-fun](http://www.rmit.edu.au/life/social-fun)

- 100+ clubs and societies
- Free arts program
- Student media – TV, radio and print
- Study and learning centre
- Trips and tours to the great outdoors

### Mentoring

New students are connected with current students through “Mates at RMIT”, a peer-mentoring program that offers you a friendly support network to help you settle into Melbourne life.

### Sport and Recreation

Keep fit and healthy by joining the gym or participating in a sport and recreation club. At RMIT, there are over 30 sports available, including basketball, tennis, jiu jitsu and surfing. Represent RMIT in the annual University Games and meet students from other universities across Australia.

### Arts and Culture

RMIT’s free arts program across all campuses helps you to discover your creativity, injects life into all campuses, encouraging you to get involved in writing, dance, design, film and visual and performing arts programs.

### Library

There is a Library available to you on every campus. Each Library site offers extensive services, facilities and study space. There are also comprehensive collections of books, periodicals and course-related materials, such as videos, magazines, software, films, newspapers and maps.

The State Library of Victoria is also located next to our Melbourne City Campus.

### Safety

RMIT has a 24-hour security service with trained officers patrolling the buildings and the University grounds both day and night.

[www.rmit.edu.au/security](http://www.rmit.edu.au/security)

### Student Services

- International student support
- Careers and employment services
- Disability services
- Financial advice
- Health information
- Accommodation assistance
- Legal advice
- Childcare
- Personal counselling
- Spiritual support

[www.rmit.edu.au/students/wellbeing](http://www.rmit.edu.au/students/wellbeing)

New Academic Street (rendered image).

The New Academic Street (NAS) multi-million dollar project will transform the student experience at RMIT’s City campus by creating interconnected spaces, outdoor terraces, laneways, light wells and walkways between floors.

The Swanston Library will be completely refurbished to provide quiet and collaborative study spaces, which will include light-filled areas.

The project is expected to be completed in 2017.

Chase Langlois  
Exchange

“My sessions at SLAMs, a tutoring service hosted by fellow students, have allowed me to excel in my classes and gain a deeper understanding of the material.”

Jaime Guillen  
Master of Engineering (Sustainable Energy)

“Being part of the RMIT tennis club for two semesters gave me the opportunity to meet students from different programs.”

Yan Cao  
Bachelor of Design (Animation and Interactive Media)

“The RMIT CareerHub helps you take your first step in your career. They have mentor sessions and staff frequently update the student jobs listing.”

Plan to arrive in Melbourne before enrolment so you have time to organise accommodation and become familiar with your new surrounds.

## Higher Education

### Semester 1 2016

Registration and enrolment	15 – 22 February
Orientation	22 February
Classes	29 February – 29 May
Mid-semester break	24 – 30 March
Exams	6 – 24 June
Mid-year break	27 June – 17 July

### Semester 2 2016

Registration and enrolment	4 – 15 July
Orientation	18 July
Classes	18 July – 16 October
Mid-semester break	29 August – 4 September
Exams	24 October – 11 November
Graduation parade and ceremony	14 December

## Vocational Education (including associate degrees)

### Semester 1 2016

Registration and enrolment	5 January – 30 January
Orientation	2 February – 6 February
Classes	8 February – 5 June
Mid-semester break	24 – 30 March (most programs)
Exams	6 – 17 June
Mid-year break	20 June – 3 July

### Semester 2 2016

Registration and enrolment	20 June – 24 June
Orientation	27 June
Classes	4 July – 30 October
Mid-semester break	29 August – 4 September
Exams	31 October – 11 November
Graduation parade and ceremony	14 December

These dates are subject to change and do not apply to programs with early commencement. Please check your Letter of Offer and [www.rmit.edu.au/students/importantdates](http://www.rmit.edu.au/students/importantdates) for the most current information.

# ● Art, Design and Architecture

---

## Design that gets you discovered

RMIT is internationally recognised for its art and design education, with graduates working around the world.

Choose from our career-oriented artistic expression and practical programs – from furniture design and textile design to games and graphic design.

RMIT's School of Architecture and Design is one of the top architecture schools in the world, with an exceptional reputation. In 2012, the Australian Research Council gave the school the highest possible ranking, which testifies to “outstanding performance well above the world standard, where research outputs demonstrate the highest standards of quality and scholarly impact”.

[www.rmit.edu.au/study-with-us/art-design-and-architecture](http://www.rmit.edu.au/study-with-us/art-design-and-architecture)

- Architecture and urban design
- Design innovation and technology
- Fashion and textiles
- Fine and visual art
- Games, animation and interactive media
- Graphic and communication design
- Industrial, furniture and product design
- Interior design
- Landscape architecture
- Merchandising
- Photography

● Alexandra Owen  
Graduate, Master of Fashion and Textiles

“Studying the entrepreneurial-focused Master of Fashion at RMIT provided me with an in-depth understanding of the business of fashion. I learnt how to apply strategic and commercial concepts to my creative thinking. The qualification has enabled me to approach creative brand direction holistically in my new role as Womenswear Designer for (Australia’s largest department store) Myer.”

## Bachelor of Design (Communication Design)

Communication design shapes communication across contemporary society from commercial, entertainment and education, to environmental, cultural and civic sectors. This program prepares you to be a locally and internationally aware communication designer capable of working across a range of domains and industries including graphic design, advertising, branding and illustration consultancies, as well as design and communication units within corporate, government and non-government organisations.

Studying design in the Melbourne CBD gives you close access to galleries, studios and strong industry connections to enable you to release your creativity. This program employs staff with established industry networks and active business and creative partnerships, helping you gain the skills you need to be an industry-ready graduate.

[www.rmit.edu.au/programs/BP115](http://www.rmit.edu.au/programs/BP115)

## Master of Architecture

RMIT Architecture has an international reputation for design excellence. We lead the way both in Australia and overseas by producing graduates that are design innovators.

Our students continue to achieve at the highest levels and are acknowledged by the architectural profession both nationally and internationally.

Discipline-specific and design focused, the Master of Architecture program helps you develop an understanding of architecture, while providing you with a diverse set of skills and a variety of learning experiences. You'll focus on developing the core skills of architectural design through to an advanced level. You'll enhance your understanding of architecture and design-based research.

[www.rmit.edu.au/programs/MC163](http://www.rmit.edu.au/programs/MC163)

**Jan Dufesiek**  
Study Abroad

"I chose RMIT because it has one of the oldest photography programs in the world, well-known former students, well-equipped facilities and lecturers with business insights. The main focus is on shooting and working in 'real life' scenarios – the best way to be prepared for the post-study life."

*Art and the Tower* by Master of Architecture student Bernadette Zajd.

*Us* by fine art student Thomas Bowman. 2013, resin, acrylic paint.

A total of 38 groundbreaking projects, including a collaboration with Circus Oz, were shortlisted for the 2014 Premier's Design Awards.

Bachelor of Fashion (Design) (Honours) graduate Nixi Killick had her collection featured as part of Lady Gaga's *artRAVE* world tour.

Fashion design by Molly Younger, one of the seven RMIT Bachelor of Fashion (Design) (Honours) graduates featured in the Virgin Australia Melbourne Fashion Festival.

Associate Degree In Design (Furniture) graduate Adam Lynch is a co-founder of multi-award-winning design collective LAB DE STU.

Bachelor of Arts (Textile Design) Lisa Petidis' *Oriental Blossom* collection won the Maxwell Williams Industrial Award and was placed into commercial production.

# ● Building, Construction and Planning

---

## Shaping future cities

Shaping the future cities and regions of the world is more than simply creating buildings and roads.

RMIT prepares you to make a profound impact on the built environment and meet the needs of a constantly evolving field. Our programs maintain strong connections to industry and government and have a global reach through international study tours and student exchange.

- Civil engineering
- Construction and project management
- Landscape architecture
- Property and valuation
- Surveying and geospatial sciences
- Urban planning

Sonny Briz

Bachelor of Applied Science (Property and Valuation) (Honours)

“I always had my heart set on a career in property development and with its good reputation in the industry, RMIT was the best option. You are constantly exposed to real-life situations in the program, which has a great mix of practical and theoretical application. A study tour to Germany showed me how things like economics play a vital part in the property industry. We learned about Germany’s involvement in the European Union and I also learned a lot about myself.”

A team of Bachelor of Applied Science (Construction Management) students – Joel Mitchell, Luke Mitrione, Oscar MacLeod Savage and Frederick Austin – were awarded first place in the Chartered Institute of Building's Global Student Challenge.

The Employer of Choice program is a mutually beneficial relationship between the School of Property, Construction and Project Management, industry employers and students. With more than 135 industry connections including Ernst & Young, KPMG Property and Demographics and Jones Lang LaSalle, RMIT provides students with direct links to the industry ensuring they are work ready graduates.

RMIT Planning students explored the history, architecture and socio-economic issues of Mexico City while on an international study tour in 2014. Working with Mexican students from Universidad La Salle, RMIT students were able to create strategies and recommendations for sustainable redevelopment and urban renewal in Mexico.

 **YouTube** [www.tinyurl.com/RMIT-MexicoTour](http://www.tinyurl.com/RMIT-MexicoTour)

### **Bachelor of Applied Science (Construction Management) (Honours)**

Construction management prepares you for organising and managing vast numbers of people and resources across the building process to ensure the safe delivery of quality buildings to clients.

The program is not just about building sites; it's about developing the urban growth of cities, the expanding need for residential and commercial properties and renovation in the built environment. Graduates find careers as site managers, quantity surveyors and consultants for large building projects.

[www.rmit.edu.au/programs/BH114](http://www.rmit.edu.au/programs/BH114)

### **Master of Project Management**

This program is designed for professionals currently working or looking to work in the field of project management. It will develop your capacity to respond to current and emerging issues and trends.

You will critically engage with project management theory and best-practice principles, and evaluate and implement project management strategies using practical project-based examples. You will develop skills that are highly sought-after globally in a variety of sectors, such as construction, architecture, engineering, information technology, government and events management.

RMIT offers specialisation in post-disaster project management to meet the skill gap in disaster and reconstruction projects.

[www.rmit.edu.au/programs/MC210](http://www.rmit.edu.au/programs/MC210)

**Dr Joe Hurley**  
Program Manager, Bachelor of Urban and Regional Planning (Honours) Member – RMIT Centre for Urban Research

"I am passionate about cities and urban communities. RMIT University has its primary campus at the heart of my favourite city, Melbourne. I work at RMIT as it is uniquely placed to engage in urban issues both locally and globally, and is a world leader in urban research.

"My research focuses on questions of urban sustainability and on the role of urban planning and governance processes to deliver better outcomes for urban communities. My students in the Bachelor of Urban and Regional Planning share this passion, developing the knowledge and skills to tackle complex problems and deliver meaningful solutions that create more liveable, equitable and sustainable urban environments."

## Producing global leaders

With six teaching schools and over 400 staff, the RMIT College of Business is one of the largest business teaching facilities in Australia.

RMIT programs offer you unrivalled opportunities to work on projects with industry, in professional practice, or in simulated environments at all levels of study. Passionate staff and peers help to create critical and creative thinkers and future business leaders.

The College of Business currently offers programs in Melbourne, Vietnam, China, Indonesia and Singapore. Melbourne-based students can undertake a semester or more of study in Vietnam as part of their enrolment in specific business programs.

[www.rmit.edu.au/study-with-us/business](http://www.rmit.edu.au/study-with-us/business)

- Accounting
- Economics and finance
- Entrepreneurship
- Engineering management
- Information systems
- International business
- Management, business and administration
- Marketing and advertising
- Merchandising
- Statistics and analytics
- Supply chain and logistics

● **Sadman Faiyaz Huda**  
Bachelor of Business (Professional Accountancy)

“The Bachelor of Business (Professional Accountancy) helps you grow as a person and exposes you to the corporate world. My favourite thing about studying at RMIT is the group project work. It improved my ability to work as part of a team. This was particularly useful during my work placement year because I was immediately able to apply those teamwork skills to the office environment.”

### Bachelor of Business (Accountancy)

This rigorous and stimulating accounting program is designed to give you the tools to make key business decisions and measure, analyse and communicate economic information. Accountancy involves recording, classifying, summarising and interpreting financial transactions and events, and is frequently used by lenders, managers, investors, tax authorities and other decision-makers.

Graduates gain employment in public accounting practices, supporting staff teams in areas like auditing, taxation, management consulting, business services and receivership. Others are recruited into commercial and government organisations in treasury, internal audit, strategic business planning, financial reporting and management accounting roles.

This program is accredited by CPA Australia, Chartered Accountants Australia and New Zealand and the Institute of Public Accountants.

[www.rmit.edu.au/programs/BP254](http://www.rmit.edu.au/programs/BP254)

### Bachelor of Business (Economics and Finance)

This highly-specialised and dynamic program trains you to perform high-level financial and economic analysis at management level in both public and private sectors.

Economics as a discipline is constantly evolving to help us understand how and why we allocate resources. It analyses important issues such as poverty, inflation, unemployment, taxes, pollution, crime, finance, inequality, international competition, consumer behaviour, world trade and economic growth.

In addition to your core studies, you will be able to choose four courses tailored to your career aspirations or study abroad with a focus on the European Union.

[www.rmit.edu.au/programs/BP251](http://www.rmit.edu.au/programs/BP251)

### Master of Professional Accounting

This professionally accredited accounting program is aimed at graduates of non-accounting disciplines who want to broaden their career prospects.

The program offers studies in the core areas of accounting and business and social, environmental, cultural and ethical issues that affect contemporary business environments.

In order to meet accreditation requirements, you will need to complete compulsory curriculum areas designated by CPA Australia and Chartered Accountants Australia and New Zealand.

[www.rmit.edu.au/programs/MC194](http://www.rmit.edu.au/programs/MC194)

### Master of Commerce

Design your own flexible program of study from existing RMIT postgraduate courses to meet your personal career aspirations.

The Master of Commerce caters to students from many different backgrounds and is highly student-centred and flexible in its design, allowing you to choose from specialisation sequences from a range of business disciplines including accounting, applied economics, business analytics, business IT, finance, information management, international business, marketing, strategic procurement, supply chain and logistics management.

Graduates may work in a variety of fields including management, finance, marketing, logistics and supply chain, hospitality, education and health.

[www.rmit.edu.au/programs/MC205](http://www.rmit.edu.au/programs/MC205)

The Swanston Academic Building features specialist learning spaces, lecture theatres, retail and social spaces to provide a stimulating environment for staff and students.

- In 2014 RMIT students were the national winners of the L'Oréal Brandstorm competition. RMIT is the most successful participant in Australia, having won the national final six times since 2006.
- Seventy prizes are awarded to students annually for academic excellence in the College of Business courses and programs. Thirty-five companies, professional bodies and private individuals sponsor these awards.
- All College of Business students are encouraged to include an international experience in their studies. Study tours are a popular option and are credited towards undergraduate and postgraduate degrees. Destinations include Europe, North America and Asia.

[www.rmit.edu.au/bus/prizegiving](http://www.rmit.edu.au/bus/prizegiving)

[www.rmit.edu.au/bus/studytours](http://www.rmit.edu.au/bus/studytours)

# ● Communication and Digital Media

---

## Breakthrough communication in a digital world

RMIT's association with industry has resulted in the delivery of unique and innovative programs in communications and digital media.

RMIT students move fluently between the classroom, the studio and the workplace, developing practical skills to adapt to emerging specialisations in an increasingly connected world.

Each program is regularly assessed by its own Program Advisory Committee (PAC) that comprises members from relevant industry bodies and teaching staff from the school. The committees ensure that RMIT programs reflect and meet the changing nature of the media and communications industry, providing students with a contemporary education to respond to global conditions with creativity and agility. Our graduates are employed all around the world in media, corporate, not for profit, government and cultural organisations.

[www.rmit.edu.au/study-with-us/media](http://www.rmit.edu.au/study-with-us/media)

- Marketing and advertising
- Communication and writing
- Games, animation and interactive media
- Music and audio visual
- Screen and media

Leanne Saw

Bachelor of Communication (Advertising)

Completed an internship at the Christian Dior head office in Sydney

“What attracted me to RMIT was its reputation and that the program is ‘hands-on’ instead of being theory focused. The best thing about this program is that it makes you step out of your comfort zone. I used to be a timid person who would get super nervous while doing presentations and interviews. With this program, I am now confident giving presentations almost every week.”

- RMIT University has revamped facilities for students in journalism, audio visual, music, communication and art. The multi-million dollar project has transformed the communication and digital media learning spaces at the Melbourne City campus.

- The Professional Practice (Global Practice) subject in the Master of Advertising has an embedded study tour, giving students from design, communication, PR and advertising the opportunity to work together. A recent study tour to New York saw students working with a number of key international organisations across creative networks, social responsibility and social media campaigns, plus advertising, design, journalism, and television and radio practice.

## Master of Animation, Games and Interactivity

In this studio-based program, you will engage with concepts and techniques to become a leader in animation, games and interactive media. You will develop a directorial vision of narrative, visual and interactive media through contemporary studio forms and devices, exploring and innovating within emerging global trends.

Our program builds on 20 years of successful postgraduate study and research into both the theoretical and practical aspects of ideas and production in animation, games and interactive media.

Upon graduation you may pursue your chosen specialisation in a broad context with careers in 2D or 3D animation, motion graphics design, interaction design, visual effects, games development, web design, character design, preproduction art, app and web development.

[www.rmit.edu.au/programs/MC232](http://www.rmit.edu.au/programs/MC232)

## Shining bright on the awards stage

From the Journalism Walkley award to Tropfest film festival and Advertising D&AD Awards; RMIT students, staff and graduates are constantly at the top of their game representing the media and communication industry.

From day one of their studies, students are encouraged to enter their work into local and international festivals and award competitions. This encourages a higher standard of work in order to receive peer and industry feedback.

Carlos Niembro who studied interactive digital media said it was a great experience to submit your work into festivals.

“It’s pretty good because you are required to make things in a professional way; it’s not just an assignment to get a mark, you are thinking, I’m going to show this to future employers or maybe to get it into a festival,” he said.

# ● Computing, Games and Information Technology

## Meeting today's digital challenges

RMIT's computing, games and information technology programs prepare you to meet today's digital challenges and to imagine how people and technology will interact in the future.

Computing and information technology programs at RMIT are regularly revised and updated to reflect the most cutting-edge industry practice and emerging technologies. Our staff are a global mix of award-winning professionals. You'll benefit from their high-level skills, experience and reputation within industry.

You can customise your program to suit your interests and build a flexible skill set by combining courses that match your passions and talents.

You won't just learn theory – you'll gain practical experience as software developers, programmers and information technology professionals on industry-relevant projects.

[www.rmit.edu.au/study-with-us/computing-games-and-information-technology](http://www.rmit.edu.au/study-with-us/computing-games-and-information-technology)

- Computer engineering
- Computer science
- Games, animation and interactive media
- Information and security
- Information systems
- Information technology
- Software engineering

● Anh Hoang Dau  
Master of Computing

"Computer science can be applied to almost every aspect of life – from business to the personal. I decided I wanted to study computer science and a close friend recommended RMIT for its practical skills and experience. I started with a graduate diploma, to see if computer science was a good fit for me. As it turns out, it was, and this gave me the confidence to complete a master degree. Right after I finished my master, I decided to take the challenge further and enrol in a research program at RMIT. I'm now pursuing a PhD in artificial intelligence and have the chance to undertake extensive study in my area of interest."

## Bachelor of Information Technology

This program provides you with a well-rounded knowledge of information technology theory and practice. With hands-on expertise you'll be able to develop an organisation's technology infrastructure and support the people who use it.

You can choose to major in one of the following areas: application programming, business applications, cloud computing, mobile computing, multimedia design, social media, system administration and web systems.

Graduates of this program typically work for commercial organisations, software development companies or industries including retail, health or tourism as well as government departments and large computer organisations. They select and deploy software products for commercial organisations, software development companies, government departments and large computer organisations. They create and manage business applications, websites, systems and environments.

[www.rmit.edu.au/programs/BP162](http://www.rmit.edu.au/programs/BP162)

## Master of Computer Science

The Master of Computer Science is a high-level program, primarily aimed at those with prior study in computer science who wish to enhance and apply this knowledge to specific practical problems through a research or industry-based project.

You'll specialise in one of these industry-focused areas: big data management, cloud computing, mobile computing, security, software architecture, web systems and search technology.

On graduation you'll have excellent programming skills, be capable of designing, implementing and maintaining complex software systems, and be able to readily adapt to new advances in the rapidly changing information technology environment.

[www.rmit.edu.au/programs/MC061](http://www.rmit.edu.au/programs/MC061)

**Junliang (Alex) Jiang**  
Master of Information Technology

"RMIT has strong industry connections and the courses are very practical. Lecturers have strong industry backgrounds and are excited to share their experience, knowledge and ideas with us.

• RMIT is ranked 1st in Australia for databases and 2nd in Asia/Oceania for information retrieval research.  
(Microsoft Academic Search)

• RMIT is ranked in the top eight Australian universities for Computer Science and Information Systems.  
(QS World University Rankings, 2014)

• RMIT is rated in the top 100 universities worldwide for Computer Science and Information Systems.  
(QS World University Rankings, 2014)

• RMIT's Games and Experimental Entertainment Laboratory – the GEELab – was established in 2011 and is the latest addition to a significant research and development investment in games at RMIT University in Australia and in Europe.

# ● Education and Teaching

---

## Sharing knowledge with future generations

With over 50 years of experience, RMIT has an established reputation for providing educational and vocational leadership in creating knowledge for the future.

Our programs and courses will equip you to confidently create a fulfilling career within the expanding education industry.

Teacher training includes practical experience teaching early childhood, primary and secondary students in government and independent schools.

By expanding the global opportunities for our students and ensuring our programs meet the needs of our industries and professions, we seek to make our graduates the most skilled in the industry.

[www.rmit.edu.au/study-with-us/education-and-teaching](http://www.rmit.edu.au/study-with-us/education-and-teaching)

- Career education
- Health and physical education
- Teacher education
- Training and assessment

Ting Jun (Tanzie) Ye  
Bachelor of Education (Early Childhood Education)

“Early childhood education has turned out to be the best major. RMIT’s partnership program means that I receive two qualifications – one from China and the other from RMIT in Australia. The program has excellent lecturers and they really invest time to make sure you understand the concepts. It has also helped me improve my English and expanded my range of employment opportunities.”

## Bachelor of Education (Primary and Early Childhood Education)

Highly skilled educators with globally recognised qualifications are always in demand. This program prepares primary teachers for the demands of 21st century learning and teaching, in a rewarding career where you can open minds and leave a lasting legacy.

This program combines hands-on experiences with leading research, exposing you to the rich and engaging tasks that are directly linked to the teaching profession. You'll gain the necessary skills to become a dynamic teacher and to inspire the next generation.

You'll have the opportunity to undertake innovative professional experience placements within a variety of educational settings, so you can spend more time in classrooms to get a head start in your career.

[www.rmit.edu.au/programs/BP046](http://www.rmit.edu.au/programs/BP046)

## Master of Teaching Practice (Secondary Education)

Expert teachers, passionate researchers, connections to industry and a strong practical focus means RMIT teaching postgraduates are among the most employable in Australia. This program is designed for those with an undergraduate degree who now want to teach in secondary schools.

You will develop a professional portfolio to demonstrate your understanding of how learning and teaching are negotiated in education in the 21st century. You will also complete a minimum of 60 days of professional placements in schools and other settings that have education facilities. These settings may include galleries and zoos and will provide practical experience. You have the option of completing an additional placement in your final year.

During placement, you will have a 'whole school experience'. You'll get to know the nature of teachers' work by participating in routine tasks and duties and observing teachers as they teach. You will plan and teach lessons, gradually increasing in number over your placement.

[www.rmit.edu.au/programs/MC220](http://www.rmit.edu.au/programs/MC220)

# Teaching at RMIT

Almost **70%**   
of students do this program as a **career change**

Almost **80%**  
of students have a previous qualification in another area of study, which helps bring **different knowledge to the learning environment**

  
**The teaching staff** are one of the most highly-rated points of the program

**The Bundoora location** is a strong benefit to students, who indicated that the atmosphere provides **a friendly and relaxed environment for those returning to study**

Survey of postgraduate teaching (secondary and primary) students, April 2014.

**Oliver Harris**  
Graduate Diploma in Education (Primary) graduate

"Between 1998 and 2010 I had pursued a career in marketing and communications both in Melbourne and in London. However, I wanted to pursue a more rewarding career, which teaching offered. I always felt that improving the outcomes of young people would challenge me

and give me a high degree of job satisfaction. At The Royal Children's Hospital (RCH), I now teach in a unique learning environment and work across all wards either in a one-to-one capacity or in group learning environments."

Through his work with The Royal Children's Hospital, Oliver was nominated for a Pride of Australia Medal.

## Turning possibilities into solutions

Engineering at RMIT strikes the perfect balance between specialised degrees and transferable skills.

RMIT's specialised programs mean you will gain discipline-specific knowledge from the beginning of your studies equipping you with the skills to start building your global career.

RMIT engineering encourages innovation and creativity – you will be actively engaged in problem solving and lab experimentation.

Project work is a key aspect of engineering at RMIT, which allows you to bridge the gap between theory and practice.

- Mechatronics and manufacturing systems
- Surveying and geospatial sciences

● **Siang Peng Ong**  
Bachelor of Engineering (Electrical Engineering) (Honours)

“I was attracted to electrical engineering because I enjoy dealing with large-scale electrical systems such as power transmission and motor control. I chose RMIT because it has a good reputation for its engineering programs. During my studies I have learnt the process of designing a new product within a team. The course I enjoyed most is Design 2, which involved designing, drilling and printing a circuit board. I really enjoyed the practical nature of this course. Another highlight has been going into industry workshops and experiencing how industry works. After graduation I plan to further my study in traffic engineering – an area I am really interested in.”

### Associate Degree in Engineering Technology

This program is aimed at those starting a career in engineering and allows you to major in one of seven major engineering disciplines. Upon graduation you may be eligible for guaranteed entry into the relevant bachelor degree program.

The associate degree has seven majors:

- Advanced manufacturing and mechatronics
- Aerospace engineering
- Civil engineering
- Computer and network engineering
- Electrical and electronics engineering
- Mechanical engineering
- Sustainable systems engineering

[www.rmit.edu.au/programs/AD026](http://www.rmit.edu.au/programs/AD026)

### Bachelor of Engineering (Civil and Infrastructure) (Honours)

This program is at the forefront of engineering education and is designed to satisfy current industry demand. Civil and infrastructure engineers plan, design, construct, supervise, manage and maintain the essential infrastructure within the community.

The program emphasises work experience and project-based learning. There's a broad range of electives so you can customise your studies to suit your interests.

[www.rmit.edu.au/programs/BH077](http://www.rmit.edu.au/programs/BH077)

### Bachelor of Engineering (Aerospace Engineering) (Honours)

Aerospace engineering focuses on the analysis, design and operation of sophisticated aerospace hardware and software systems. This highly analytical field of engineering requires you to have well-developed skills in mathematics and physical sciences, as well as excellent communication skills.

The program has an emphasis on design and manufacture activities that are internationally competitive and provide you with the skills to practise aerospace engineering.

[www.rmit.edu.au/programs/BH078](http://www.rmit.edu.au/programs/BH078)

### Bachelor of Engineering (Mechanical Engineering) (Honours)

Mechanical engineering involves the conversion and control of energy and motion in machinery and systems. Mechanical engineers apply a wide range of knowledge of materials, structures, energy and management to solve technical problems.

This program offers the following specialisations: computer aided engineering and design, industrial aerodynamics and computational fluid dynamics, energy conservation and renewable energy, mechatronics, dynamics and control.

[www.rmit.edu.au/programs/BH070](http://www.rmit.edu.au/programs/BH070)

Associate degrees are two-year qualifications that provide you with a pathway and credit into a related bachelor degree. Find out more on page 67.

Our engineering programs include work placements tailored to suit the needs of industry. They take various forms and can include:

- 12-week placements
- 6 or 12-month placements
- industry-based projects
- short term, full-time or part-time.

Students have undertaken industry placements at companies such as BHP Billiton, Defence Materiel Organisation, Ericsson, Ford, Motorsport, GHD, Holden, John Holland, Microsoft, Motorola, Opus Rail, Powercor Australia, Qantas, Rio Tinto, Telstra, Toyota, Transfield Services, United Energy and more.

Renewable energy park.

Computer and network engineering

**Sainath Tavate**  
Master of Engineering (Environmental Engineering)  
by Research graduate

"I decided to study at RMIT because I enjoy a practical approach to studying, rather than a theoretical one.

"I received a scholarship to complete my masters program undertaking a collaborative research project with South East Water, EPA Victoria and Melbourne Water. Working with professionals on and offsite on an ongoing project developed my project management skills, which was encouraging and beneficial. This was a great learning curve that developed me as an engineering professional."

# ● Environment and Sustainability

---

## A forward-thinking sustainable approach

Tackling environmental issues requires a multidisciplinary approach. Many of our environment and planning programs include hands-on experience through field studies and excursions, conducted in association with industry, government and environmental agencies.

We provide you with collaborative opportunities to apply your skills and knowledge to create sustainable changes, both locally and overseas.

Whether it's assisting communities with environmental management or protecting the biodiversity of marine life in our coastal areas, you'll be able to get hands-on with professional experience and real projects across the globe.

[www.rmit.edu.au/study-with-us/environment-and-sustainability](http://www.rmit.edu.au/study-with-us/environment-and-sustainability)

- Environmental and sustainable engineering
- Environmental science
- Surveying and geospatial sciences
- Sustainable practices

● **Tom Delbridge**  
Bachelor of Social Science (Environment)

“I moved from Sydney to study at RMIT, as it was the only university offering the type of environment program that I wanted to pursue. The program really throws you into the deep end by having you work with teams to complete research projects for real-world clients concerning environmental outcomes.

“My work placement with Friends of the Earth Melbourne led to me creating a report titled *Natural Disasters and a Warming Climate; Understanding the Cumulative Financial Impacts on Victoria* which gave a monetary value to what Victorians faced if inaction continued on the issue of climate change. If it wasn't for the Bachelor of Social Science (Environment), I would not have the skills, confidence and motivation to jump into such a motivated environment like Friends of the Earth Melbourne and work with such talented campaigners.”

## Bachelor of Environmental Science

Environmental science involves a mix of many disciplines, including biology, chemistry, geology, hydrology, meteorology and physics. It is at the interface between these disciplines that environmental scientists often work, which is an exciting and rewarding place to be.

You will undertake plenty of experimental work in well-equipped laboratories, work on collaborative projects with industry partners, and take part in a number of field trips to areas such as Queenscliff, Phillip Island, Lakes Entrance in Eastern Victoria, Lizard Island on the Great Barrier Reef and our Vietnam campus in Ho Chi Minh City.

Graduates can find jobs in environmental consultancies, government agencies, resource management, research and education, and the mining/manufacturing industry.

[www.rmit.edu.au/programs/BP192](http://www.rmit.edu.au/programs/BP192)

## Master of Environmental Science and Technology

This program prepares you for managing environmental projects. It will provide you with a broad understanding of multiple disciplines relevant to environmental science, and the opportunity to study specific areas in depth. You will be exposed to new and developing sustainable technologies and environmental protection methods.

The knowledge and skills you gain will be incorporated into an industry-relevant research project. As a future manager in environmental science, you'll be expected to design and manage projects in an ethical fashion and be able to communicate with a wide range of audiences.

[www.rmit.edu.au/programs/MC191](http://www.rmit.edu.au/programs/MC191)

## Master of Energy Efficient and Sustainable Building

You will gain advanced knowledge to design and deliver energy efficient and sustainable buildings. This two-year program will prepare you to work in multidisciplinary teams to design, develop and implement solutions for new and retrofitted buildings.

You can specialise in engineering, project management or environmental building design through your choice of program electives. You will also complete a project-based course to integrate your knowledge and skills, and connect theory and practice.

[www.rmit.edu.au/programs/MC209](http://www.rmit.edu.au/programs/MC209)

### Sustainable Urban Precincts Program (SUPP)

RMIT's \$98 million Sustainable Urban Precincts Program (SUPP) is the largest program aimed to reduce energy and water use, and greenhouse gas emissions. The program will run for over eight years and is the biggest program of its kind in the southern hemisphere.

The SUPP aims to reduce electricity usage by an estimated 239 million kilowatts, leading to a 30,000-tonne reduction in greenhouse gas emissions. It will also reduce water use by an estimated 68 million litres.

- As part of the Field Practicum at Lizard Island Research Station, elective students undertake field work on the Great Barrier Reef.

[www.tinyurl.com/RMIT-LizardIsland](http://www.tinyurl.com/RMIT-LizardIsland)

- Final year environment students have the opportunity to undertake the Vietnam project, a two-week intensive field research project where they act as a consultancy, investigating urban development and providing sustainability recommendations to local non-profit organisations and Vietnamese government agencies.
- A team of RMIT students and staff combined their skills and talents in a bid to win the Water Innovation Challenge which was held in Singapore in June, 2014.

# ● Healthcare and Medical

---

## Hands-on, purpose-driven programs

RMIT healthcare and medical programs will help you discover how best to help others. Our dedicated healthcare and medical campus immerses you in a professional community.

Whether you're learning in anatomy labs, nursing wards, nuclear medicine workstations or on sports fields, our equipment and facilities are purpose built for your study requirements, freshly refurbished to international standards and readily accessible without having to travel off campus.

RMIT is always reviewing its teaching practices – lectures are supplemented with dynamic small-group discussions, podcasts, videos, virtual clinics, simulations mannequins and interactive resources.

Many programs include industry placements, student clinics and work experience opportunities in Australia and overseas.

[www.rmit.edu.au/study-with-us/healthcare-and-medical](http://www.rmit.edu.au/study-with-us/healthcare-and-medical)

- Biomedical sciences
- Community services
- Complementary medicine
- Dental studies
- Medical radiations
- Nursing and allied health
- Optical dispensing
- Pharmacy
- Psychology
- Sports science
- Social work
- Workplace health and safety

**Thilini Marasinghe**  
Bachelor of Applied Science (Psychology)

“At RMIT, I have developed interpersonal skills and the ability to research and write journal articles, analyse statistics, and gain an understanding of people and personalities.

“I recently went on a study tour to France. This was a great opportunity to try something different, explore a new culture and broaden my knowledge and experience.

“My plans for the future are to become a primary school teacher where I hope to focus on identify learning difficulties at young ages.”

## Bachelor of Nursing

This program consists of theory, nursing laboratory skills, clinical simulation and a strong focus on clinical placements, encompassing acute care nursing, continuing care nursing, community care and mental health nursing. You will graduate as a registered nurse with excellent employment prospects.

Upon successful completion of the program, you will be eligible to apply for registration with the Australian Nursing and Midwifery Registration Board; a part of the Australian Health Practitioner Regulation Agency (AHPRA). AHPRA registration enables you to practice anywhere in Australia upon graduation.

[www.rmit.edu.au/programs/BP032](http://www.rmit.edu.au/programs/BP032)

## Master of Laboratory Medicine

This vocationally orientated program allows you to undertake advanced laboratory medicine training and apply diagnostic procedures in a clinical pathology laboratory. You can specialise in two clinical pathology discipline streams choosing from:

- Clinical biochemistry
- Cytopathology
- Haematology
- Histopathology
- Medical microbiology
- Transfusion and transplantation science.

[www.rmit.edu.au/programs/MC158](http://www.rmit.edu.au/programs/MC158)

## Master of Science (Medical Radiations)

This program allows you to develop your advanced research skills and contribute to new developments in medical radiation sciences. RMIT holds several prestigious National Health and Medical Research Council grants and conducts numerous industry-linked research programs.

Your research will be supported by state-of-the-art research facilities including specialised laboratories.

Under expert supervision, you will develop your skills and join researchers already active in:

- medical physics
- nuclear medicine
- quantitative and qualitative projects in medical imaging
- radiation therapy

[www.rmit.edu.au/programs/MR228](http://www.rmit.edu.au/programs/MR228)

RMIT operates a number of teaching clinics, with an emphasis on ageing and chronic care, to provide students with practical learning experiences while they study. The general public, along with RMIT students and staff, receive treatment by students under supervision.

Students gain hands-on experience and work on cadavers in newly remodelled anatomy laboratories.

RMIT's Bundoora campus is dedicated to the health and medical sciences with purpose-built facilities, including the award-winning Bioscience building, which houses state-of-the-art digital pathology and haematology laboratories.

Chiropractic.

# ● International and Community Services

---

## Empowering individuals to contribute to society

RMIT's passionate staff, work placements, pathway opportunities and proven international research will help you thrive as a global practitioner.

Our programs offer hands-on, practical learning including work placements, field education and internships. Our faculty of Social Sciences and Management is in the top 150 globally according to the 2014 QS World University Rankings.

Learn to interpret and influence society with a range of programs addressing emerging issues that affect our local and global communities in a time of rapid social transformation.

- Community services
- International studies
- Languages, translating and interpreting
- Psychology
- Public policy
- Social work

**Thi Thi Tho Tran**  
Master of Translating and Interpreting

“With this qualification, I could help my Vietnamese community residing in Australia to effectively communicate with legal issues or their right to access or receive better care services. In addition, once I return to Vietnam, I can sufficiently transfer my knowledge in my own language. The program gives you insight into languages, cultures and communities.”

## Advanced Diploma of Translating

Translating has been practised for hundreds of years, and it remains vitally important due to expanded interaction between people and cultures in this era of globalised economies and advances in technology.

Professional translators provide a critical service for multicultural communities, government and private agencies, translating documents crucial to diplomatic, legal, cultural, medical and business activities. RMIT delivers National Accreditation Authority for Translators and Interpreters (NAATI) accredited programs and places a strong emphasis on producing work-ready graduates who can choose to specialise in various fields.

The following languages are available through the Advanced Diploma of Translating (subject to interest): Amharic, Arabic, Chinese, Dari, Dinka, French, German, Greek, Indonesian, Italian, Japanese, Korean, Malay, Polish, Spanish, Tamil, Thai, Turkish and Vietnamese.

Graduates can find work the following areas: professional translation, cross-cultural training, communications, community cultural liaison, journalism, writing, language localisation and linguistics.

[www.rmit.edu.au/programs/C6133](http://www.rmit.edu.au/programs/C6133)

## Master of International Development

More than one billion people live in absolute poverty. They do not have sufficient food, have no access to clean water or sanitation, die from preventable illness, and have limited rights as human beings. Gain understanding of development issues across the world, especially focusing on underprivileged communities, gender and health issues in developing and developed countries.

You'll study courses that cover a range of political, social and economic problems such as gender and health inequalities, environmental and human rights issues in both developing and developed countries, and be taught by academics from diverse cultural backgrounds. You will develop skills to help communities, cities and countries adapt to the complex and changing environment in an era of globalisation including economic knowledge, advocacy and training skills.

[www.rmit.edu.au/programs/MC211](http://www.rmit.edu.au/programs/MC211)

**Laura Bishop** (second from left)  
Bachelor of Arts (International Studies) graduate

"The program encourages you to view the world with fresh eyes. Be prepared to work hard, be prepared to argue your beliefs and be prepared to meet people who will change your opinion of the world. But most importantly, enter with an open mind."

Laura is providing a second chance at life to those living in debilitating conditions through her work as national manager of EthiopiAid, which aims to improve health and education in Ethiopia. Since graduating from RMIT, Laura has worked extensively overseas. She worked alongside asylum seekers and refugees under threat of deportation in South Africa and ran education and empowerment programs for young offenders in a maximum-security prison in Cape Town.

The Social Work Alliance Project (SWAP) is a student group that aims to increase the sense of community within the discipline of social work at RMIT. The group has casual meets ups, social events, fundraising and other industry-related activity. They are currently organising student volunteers to run a food van in Melbourne's CBD for the homeless and hungry.

[www.su.rmit.edu.au/clubs/academic/rmit-social-work-alliance-project-swap/](http://www.su.rmit.edu.au/clubs/academic/rmit-social-work-alliance-project-swap/)

RMIT's academics maintain strong industry connections in the human services sector. Master of Public Policy lecturers Dr Sharon Andrews and Dr Lisa Harris work closely with The Salvation Army, one of the world's largest social welfare organisations. Their research and work has led to better implementation of the Outcomes Star™ case-management tool which helps clients and social workers identify personal motivators that lead to sustainable changes in the client's life and greater independence.

All RMIT translating and interpreting programs are approved by the National Accreditation Authority for Translators and Interpreters (NAATI), and graduates are eligible for accreditation as a translator or interpreter by NAATI.

## ● Justice and Legal

---

# Question, interpret and understand the issues

RMIT's justice and legal programs and courses are developed in consultation with industry and are highly regarded for their practical application and work experience components.

You will learn about the justice and legal systems from the perspectives of business, policy, politics, sociology and criminology.

With industry contacts and partnerships built over 30 years, RMIT can prepare you to practise, enforce and reform the law across a range of justice and legal professions.

[www.rmit.edu.au/study-with-us/justice-and-legal](http://www.rmit.edu.au/study-with-us/justice-and-legal)

— Legal administration and policy

● Abdulla Almazrouei

Bachelor of Arts (Criminal Justice Administration)

"Coming to RMIT was the best decision of my life. The course is very interesting and every day I am learning new things that will help me with my future life. There are different combinations to choose from and we are able to study criminology, communication and psychology at the same time.

"This gives me skills to deal with complicated situations at work and with criminals in future. I have also learnt how to understand others and do not make judgements too quickly."

### **Bachelor of Arts (Criminal Justice Administration)**

Whether it's at the front line of Australia's border protection or working with Australia's Federal Police, criminal justice opens up all kinds of local and international career opportunities.

Developed in consultation with senior members of the Victorian judiciary, state and federal police, Department of Justice, and the Department of Human Services Victoria, this program appeals to those wanting to enter the police forces, corrections, courts, customs and related agencies.

[www.rmit.edu.au/programs/BP023](http://www.rmit.edu.au/programs/BP023)

### **Master of Business (Business and Law)**

Make a contribution to law and legal research by completing a thesis or project under the supervision of an appointed researcher. You can conduct research on your nominated topic, or focus on an RMIT area of specialisation such as corporate governance and regulation, corporation law, computer and privacy law, commercial law, or tax law.

You will benefit from events and opportunities offered by RMIT's Graduate School of Business and Law, Global Cities Research Institute, Smart Services Cooperative Research Centre and the Centre for Innovative Justice (CIJ).

[www.rmit.edu.au/programs/MR205](http://www.rmit.edu.au/programs/MR205)

### **Emily Stevenson Bachelor of Arts (Criminology and Psychology)**

"I chose to study at RMIT because it offered the Bachelor of Arts (Criminology and Psychology), and no other university offered anything similar that catered to my interests. The program was appealing as it integrated two careers that I wanted to pursue and ultimately turned them into one. I would definitely recommend studying this course. It is interesting and engaging and it opens up many opportunities within the health, justice and other fields, keeping your career options open while you decide what it is specifically that you want to do."

### **Ivan Nekic Bachelor of Arts (Criminal Justice Administration)**

"I have a passion for helping people in society and exploring various ways of delivering justice. This degree is like no other as you gain a deeper understanding of the fundamentals in the criminal justice system ranging from psychology to policing and criminal law."

The Bridge of Hope Innocence Initiative is an exciting collaboration between RMIT and the Bridge of Hope, a not-for-profit organisation that runs programs designed to break the cycle of entrenched disadvantage that often leads to offending behaviour. The initiative aims to examine cases where a person may have been wrongfully convicted, and where there is evidence of a wrongful conviction, to assist in exonerating that individual. As part of the initiative students are primarily supervised by a lawyer.

[www.rmit.edu.au/justice/innocence-initiative](http://www.rmit.edu.au/justice/innocence-initiative)

RMIT's Centre for Innovative Justice (CIJ) undertakes research to identify effective alternative approaches to improve the provision of criminal justice, civil dispute resolution and legal services. Led by the former State Attorney-General, Rob Hulls, the CIJ collaborates with agencies and organisations involved in delivering innovative justice programs and provides a direct link for students to engage with industry and government.

[www.rmit.edu.au/innovativejustice](http://www.rmit.edu.au/innovativejustice)

RMIT has a long history in legal education, preparing students for successful careers. RMIT graduates have held roles as barristers, magistrates, Queen's Counsel, judges in the County Court and Court of Appeal, a Supreme Court Crown Prosecutor, Chair of Legal Aid Victoria, and Deputy Premier of the State of Victoria.

## A world of possibility for enquiring minds

Science at RMIT provides practical solutions to real-world problems.

You could use statistics to analyse elite sports teams, develop a new sunscreen, or investigate sustainability and urban development projects in Vietnam.

RMIT graduates are renowned for their quality education and their hands-on skills, making them highly desirable to employers. RMIT provides its students with flexibility in choice of disciplines and industry-relevant experience. There is a strong focus on lab work, field trips and industry experience. Modern laboratories and access to a broad range of sophisticated equipment enables advanced research work and skills training in line with industry best practice and research.

● Jayanandini Gnanasambanthan  
Bachelor of Science

“I’m broadly interested in the environment and I was attracted to the science program at RMIT because I liked the course outline and knew it would extend my knowledge about plants and animals. I also liked the fact that RMIT offered adventurous practicals and excursions. In the three years that I have been at RMIT, I’ve learned about proper laboratory skills and safety hazards; how to identify a disease affecting plants and obtain environment samples; increased my ability to identify plants and animals; and become aware of threats to the environment.”

## Master of Biotechnology

In this general degree program you have the option to specialise in clinical microbiology, food microbiology or food science.

**Clinical microbiology** focuses on microbes that cause infectious disease, and how to identify, diagnose and treat the microbes and the diseases they cause. Typically, students will find employment in hospital and private diagnostic labs, research labs, or biotechnology companies.

**Food microbiology** focuses on food safety, and the detection and prevention of food contamination by microbes, in particular bacteria. Employment opportunities are available in food companies and in regulatory bodies.

**Food science** covers areas including food composition, food safety, product development and many others. A wide range of employment opportunities in the diverse food industry are available to graduates.

[www.rmit.edu.au/programs/MC111](http://www.rmit.edu.au/programs/MC111)

## Doctor of Philosophy (Applied Chemistry)

Use your advanced research skills to contribute to new developments in applied chemistry. RMIT has demonstrated success in collaborations, funding and research publications. Our modern, purpose-built and well-equipped facilities including analytical instrumentation, will support your research.

Our expertise in molecular modelling and chemo-metrics has found applications to span multiple research fields.

Under expert supervision, you will develop your skills and join researchers already active in:

- analytical chemistry
- environmental analysis
- occupational health and safety and
- physical and materials chemistry.

[www.rmit.edu.au/programs/DR229](http://www.rmit.edu.au/programs/DR229)

- Strong links and collaboration with industry flow through to your student experience. Science at RMIT includes industry experience and involvement in science research projects.
- Students have access to modern laboratories and a broad range of sophisticated equipment that enables advanced research work and skills training.
- RMIT's Science programs offer flexible course choices with multiple career paths.

Chemistry.

Physics.

Food technology.

MicroNano Research Facility.

## Transform the future

Meeting the challenges of a research degree is the ultimate way to establish yourself as an expert in your field and showcase your ability for critical thinking and long-term project management.

As a researcher at RMIT, you can:

- develop your own topic and pursue your own theories
- work independently while interacting with experts
- have your thesis or project critically reviewed
- receive government and industry grants
- participate in the commercialisation process.

### Making a Difference

RMIT is part of an international research community seeking innovative solutions to address emerging global problems.

RMIT has achieved excellence and global prominence through four internal research structures:

- individual researchers in schools
- research groups in schools and colleges
- RMIT research centres
- RMIT research institutes.

RMIT University also participates in cooperative research centres and other national centres of excellence, providing you with the ultimate resources to make a valuable contribution to your field.

[www.rmit.edu.au/research](http://www.rmit.edu.au/research)

### Masters and Doctorates

RMIT's postgraduate research degrees have strong industry links relevant to the national and global marketplaces. Research degrees are offered at two levels – master and doctorate. You may be able to enter at doctoral level if you already hold an honours degree.

### ● Eye in the Sky

RMIT researchers are part of a team working to improve our knowledge of the Antarctic climate by using GPS signal data to determine how the atmosphere above the continent has behaved in the last decade.

RMIT researchers have teamed with the Bureau of Meteorology, the Australian Antarctic Division and Austria's University of Graz on a project that will extend the data record of atmospheric conditions from the Antarctic fringe through to the South Pole.

The Satellite Positioning for Atmosphere, Climate and Environment (SPACE) Research Centre at RMIT is leading the study, which will build on the Centre's world-leading research into atmosphere analysis using satellite data.

In partnership with industry and communities throughout the world, RMIT's four research institutes continue to drive change for a better future.

### RMIT Design Research Institute

Engaging with new design technologies to enhance community and individual life, this institute focuses on the delivery of space, environments, services and products through design methodologies that draw on and guide our needs and wishes.

Research themes:

- customising space
- rapid manufacture
- intervention through art
- geoplaced knowledges
- urban liveability

### RMIT Global Cities Research Institute

Focusing on a number of carefully chosen cities and their hinterlands in the Asia-Pacific region, this institute engages in cutting-edge and applied research that has real-world consequences for communities, governments and organisations.

Research themes:

- climate change adaptation
- globalisation and culture
- community sustainability
- human security
- sustainable urban and regional futures

### RMIT Health Innovations Research Institute

Seeking to better connect diverse communities around health enterprises to more effectively address the changing needs of biomedical research and society, this institute's theme is "translating fundamental science into better health outcomes".

Research themes:

- ion channels and transporters as therapeutic targets
- metabolism, exercise and disease
- traditional and complementary medicine
- biophysics and bioengineering

### RMIT Platform Technologies Research Institute

Aiming to lead in the integration of smart materials and systems into technologies for the future, the research of this institute focuses on the development of new devices across machine, environmental and biological systems to meet the needs of industry.

Research themes:

- nanomaterials and devices
- security and safety
- Sports Engineering Technologies (SportzEdge)
- intelligent industrial information technologies

**Mohammed Alqahtani**  
Doctor of Philosophy (Nursing)

"Choosing a research topic is one of the most important choices that I will make in my professional career.

"My research will focus on the knowledge, attitudes and beliefs of healthcare providers who are working in the medical oncology units; haematology and palliative care units in Kingdom of Saudi Arabia (KSA).

"By completing the PhD degree in pain management, I will work with the healthcare system in KSA as well as the national lead hospital to develop a national pain management policy, and guidelines that all health institutions will follow."

### Research supervisors

RMIT has hundreds of research supervisors listed, all with unique interests and areas of specialisation. For an up-to-date supervisor listing, refer to [www.rmit.edu.au/research/search-supervisors](http://www.rmit.edu.au/research/search-supervisors).

Learn more about other important RMIT research.  
[www.tinyurl.com/RMIT-Innovation](http://www.tinyurl.com/RMIT-Innovation)

# ● Study Abroad

## Join RMIT for one or two semesters

If you are already enrolled at university, you can join RMIT University for a semester or a year through a Study Abroad program. Study Abroad provides a unique opportunity to study in Australia and gain credit towards your studies back home. It also gives you experience in a new culture and the opportunity to develop as a person and a future employee.

As a study abroad student, you will be immersed in the RMIT experience by studying alongside full time degree students from across the world. There are also courses that are uniquely designed for Study Abroad students that give you an insight into Australian culture and society.

### Choose from a wide range of courses

You can design your own Study Abroad program by selecting courses from any of RMIT University's study areas as long as you have the necessary prerequisites. Subjects can be credited towards your degree if your home institution has approved them.

RMIT University offers over 400+ programs to international students, giving you a very wide range of courses to choose from. There are few restrictions on what you can study, but the following areas are often most popular with Study Abroad students:

- Animation
- Australian society
- Biotechnology
- Business
- Communication design
- Computer science
- Engineering
- Entrepreneurship
- Environmental engineering
- Indigenous studies and indigenous policy
- International business
- Journalism
- Photography
- Project management
- Telecommunications
- Translating and interpreting
- Urban planning

\* See page 65 for more information

Symbol	Note
~	This program incurs additional costs. Please refer to the website for further information: <a href="http://www.rmit.edu.au/programs/fees/other">www.rmit.edu.au/programs/fees/other</a> .
^	This program includes a professional work placement.
^^	This program plan includes flight training and has the additional objective of training students to achieve competency as a pilot, leading ultimately to the issuance of a Commercial Pilot License (CPL).
‡	The fee includes the program's maximum allotted flight hours and further fees will apply if students require additional flight hours. Material and additional fees are charged on top of the tuition fee, and details can be found at <a href="http://www.rmit.edu.au/programs/fees/ad023-otherfees">www.rmit.edu.au/programs/fees/ad023-otherfees</a> .
*	Students may be required to attend both locations.
◆	July commencement is only available for students with advanced standing.
⊙	This program is designed for July entry. The program structure is accelerated and consists of six semesters over 2.5 calendar years. Students will take four first year courses in intensive mode over spring (Nov/Dec) and (Jan/Feb) summer semesters.
↪	This is an accelerated program. Students are required to complete one summer semester (comprising 48 credit points) during their degree.
μ	English language programs are offered by RMIT English Worldwide (REW) CRICOS Provider Code 01912G. A \$240 enrolment fee applies.
†	This program requires flight training which is conducted at the Point Cook campus.
§	The fee advertised applies irrespective of a student enrolling in 36 or 48 credit points in a semester.

# English Language Proficiency

International applicants are required to meet the English Language requirements for admission to RMIT University. Choose one of the following options:

**1**

You can provide test results from the International English Language Testing System (IELTS) test or Test of English as a Foreign Language (TOEFL). Refer to the table below for the equivalent test requirements.

**2**

You can provide evidence that you completed an Australian or overseas qualification that was conducted in English and is recognised by RMIT University. For a full list refer to:

[www.rmit.edu.au/international/english-equivalent](http://www.rmit.edu.au/international/english-equivalent).

**3**

Study an English language program at RMIT English Worldwide (REW). Further information is available on page 68.

IELTS (academic module)	TOEFL (internet based iBT)	TOEFL (paper based) Academic	Pearson Test of English (PTE)	Cambridge Academic English (CAE)	RMIT English Worldwide
5.5 overall band score with no individual band score below 5.0	Overall score 71 with minimum of 17 in all sections	530 (TWE 3.5)	42 no band less than 36	Not applicable	Upper Intermediate Certificate
Score 6.0 overall with an individual band score of 5.5	Overall score 79 with minimum of 19 in all sections	550+ (TWE 4.0)	50 no band less than 42	CAE Grade C	Advanced Level Certificate
Score 6.5 overall with an individual band score of 6.0	Overall score 92 with minimum of 20 in all sections	580 (TWE 4.5)	58 no band less than 50	CAE Grade B	Advanced Plus Level Certificate
Score 7.0 overall with an individual band score of 6.5	Overall score 100 with minimum 24 in writing and 22 in all other sections	600 (TWE 5.0)	65 no band less than 58	CAE Grade B	Not applicable

## Choose your own path

Pathways provide opportunities for students to complete one program and then move into another. It's a way of getting into the program you want, even if you can't meet the entry requirements straight away. Different levels of study at RMIT mean you can explore more than one way of getting the qualification you're aiming for.

### RMIT English Worldwide

RMIT English Worldwide (REW) delivers English language programs to help international students meet the English language requirements for academic study at RMIT. You might prefer this option if you already meet the academic requirement for your desired program but need to improve your level of English. Find out more on page 68.

### Foundation Studies

This accredited program prepares high-school students for university study. It is recognised for entry into degree and diploma programs and is an alternative to taking the Australian Year 12. Further information is available on page 69.

### Vocational Education

Vocational education is practically orientated, ensuring excellent job prospects on completion. Vocational qualifications include advanced diplomas, diplomas and certificates, and can provide an excellent pathway to university degrees. Some programs provide up to two years credit toward an RMIT bachelor degree.

[www.rmit.edu.au/study/applying-to-rmit/pathways](http://www.rmit.edu.au/study/applying-to-rmit/pathways)

### Associate Degrees

The two-year associate degree programs aim to provide a strong understanding of a selected study area. Students who complete an associate degree can receive credit exemptions for studies completed and gain entry into a related bachelor degree program.

### Collaborative Articulation Programs

RMIT has Collaborative Articulation Programs (CAP) with seven highly regarded institutions in China and India. These unique programs provide a formal pathway for students who want to complete part of a degree overseas before transferring to RMIT. You will graduate with two awards – one from each institution.

If you have completed prior tertiary study or have relevant work experience, you may be able to reduce the duration of your program through credit transfer or recognition of prior learning.

Students should negotiate individual credit transfers with their program coordinator. For more information go to [www.rmit.edu.au/students/enrolment/credit](http://www.rmit.edu.au/students/enrolment/credit).

## Gain invaluable language skills

RMIT English Worldwide (REW) develops and delivers English language programs tailored for academic, business and industry purposes. REW programs support and prepare students and professionals to successfully use English in study and professional settings.

The 2016 tuition fees are AU\$410 per week plus an enrolment fee of AU\$240.

### Academic English

English for Academic Purposes (EAP) helps you to meet the English language requirements for further study at RMIT. EAP will assist you to develop key skills in critical thinking, independent learning and active participation in the classroom.

If you successfully complete an appropriate level of EAP, you will be eligible for entry into further study at RMIT without the requirement to sit an IELTS or TOEFL test.

### IELTS Preparation and Testing

REW Melbourne is an official IELTS test centre and IELTS preparation course provider. IELTS preparation courses are the perfect way to prepare for studying in Australia or applying for residency. All programs are designed to give you the skills and confidence required to take the IELTS test.

For more information visit [www.rmitenglishworldwide.com](http://www.rmitenglishworldwide.com).

You can also study RMIT English Worldwide programs in China, Vietnam, Thailand, Singapore and Indonesia.

Every REW level comprises 200 hours of tuition. More than 50 hours of online self study materials are available at each level.

### Approximate entry level

IELTS	2.0–3.0	3.5–4.0	4.5 no band < 4.0	5.0 no band < 4.5	5.5 no band < 5.0	6.0 no band < 5.5

# Strong foundations for future success

Foundation Studies guarantees entry into your preferred degree program at RMIT University, providing you achieve the required score. Foundation Studies also provides access to associate degrees and diplomas if you need an alternative pathway.

As an RMIT Foundation Studies student, you will be part of the university from day one, learning from university staff and studying at RMIT's vibrant City campus. You will have access to libraries, laboratories, studios, IT equipment, student services and clubs – everything RMIT has to offer.

Foundation Studies has three tailored streams for you to choose from:

- Business
- Art, Design and Architecture
- Science, Engineering and Health.

Alternatively, we also offer a General Program that provides freedom to choose from over thirty courses – from art, design and architecture, through to business, science, engineering and health.

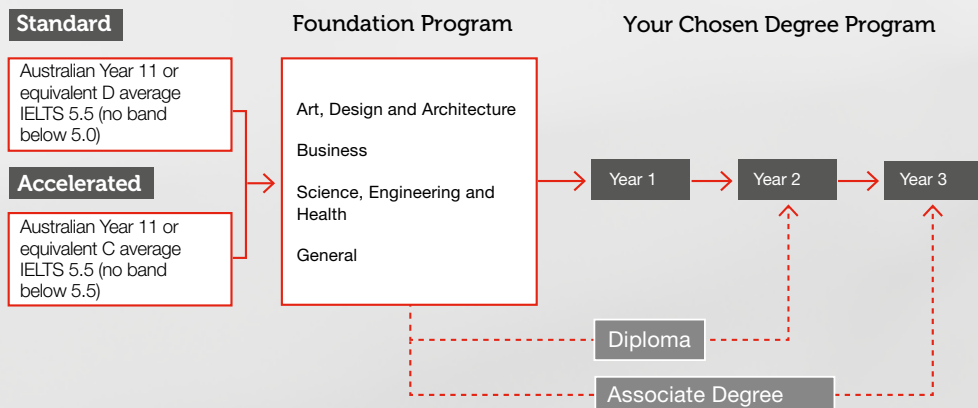

You should undertake a Foundation Studies program if:

- You have completed a Year 11 equivalent and need some extra preparation before beginning university.
- You have completed Year 12 but cannot gain direct university entry.
- You have not done as well as you had hoped in previous studies and need alternative pathway to RMIT University.
- Your preferred program specifies a prerequisite that you have not completed, such as a specific subject or portfolio.

Find out more about guaranteed pathways and requirements at [www.rmit.edu.au/internationalcollege/guaranteed-pathways](http://www.rmit.edu.au/internationalcollege/guaranteed-pathways).

● RMIT also offers Foundation Studies in Jakarta, Indonesia.

[www.rmit.com/study/international-partners/indonesia/programs](http://www.rmit.com/study/international-partners/indonesia/programs)

● **Georgina Kieru**  
Foundation Studies

“I chose Foundation Studies because I wanted to ensure I was ready before starting my bachelor degree. It was also my chance to make sure that my choice of study was what I really wanted to do.”

# • How to Apply

1

Find the program that you want to study

[www.rmit.edu.au/programs](http://www.rmit.edu.au/programs)

2

Check that you meet the **entry requirements**

Consider English language and academic requirements, prerequisites and selection tasks.

3

Collect required **documents**:

- certified copies of academic transcripts from all qualifications
- certified copies of all graduation certificates in both original language and in English
- evidence of English language proficiency

You will also need any supporting documents listed in your program's entry requirements.

4

Submit your **online application**

[iapply.rmit.edu.au](http://iapply.rmit.edu.au)

If you need help with your application, email [isu@rmit.edu.au](mailto:isu@rmit.edu.au) or contact one of RMIT's appointed agents:

[www.international.rmit.edu.au/info/agentlist](http://www.international.rmit.edu.au/info/agentlist)

We suggest you apply at least three months before your program start date so that you have enough time to obtain your student visa. Some programs have quotas and may close for admission without notice.

7

Receive your electronic **Confirmation of Enrolment (eCoE)**

Expect to receive this three days after your payment is confirmed.

6

**Accept your offer**

Log into [iapply.rmit.edu.au](http://iapply.rmit.edu.au) to complete the Offer Acceptance Form and make an online deposit.

5

Receive a **Letter of Offer** if your application is successful

Expect to receive an outcome two to four weeks after you apply.

## 8 Check your **visa assessment level**

[www.immi.gov.au/Study/Pages/student-visa-assessment-levels.aspx](http://www.immi.gov.au/Study/Pages/student-visa-assessment-levels.aspx)

This affects the documents required for your visa application.

RMIT University participates in the Australian Government's Streamlined Visa Processing (SVP) program. This means that students with an eCoE for an advanced diploma, bachelor, masters, PhD or exchange program can have their student visa processed quickly under Assessment Level 1 guidelines.

## 9 Check which **documents** are required for the visa application

[www.immi.gov.au/students/students/chooser](http://www.immi.gov.au/students/students/chooser)

All applicants need to meet the Australian Government's Genuine Temporary Entrant criteria.

## 10 **Apply** for your visa

The application process is different in each country.

[www.immi.gov.au/Help/Locations/Pages/our-offices.aspx](http://www.immi.gov.au/Help/Locations/Pages/our-offices.aspx)

## 13 **Travel to Australia** and make sure you arrive on time for enrolment

For important dates and to prepare for life in a new country, refer to page 13 and visit:

[www.rmit.edu.au/students/gettingstarted](http://www.rmit.edu.au/students/gettingstarted)

## 12 After your **visa is granted**, you can travel to Australia

Make sure you follow all visa conditions or your visa may be cancelled. Read more about your obligations on page 72.

## 11 **Wait** for your application to be approved

If you are not eligible to participate in the SVP and you are from a country with assessment level 3, a student visa could take up to six months.

# Further information

## Australian Government Regulations for Student Visas

Students are granted a student visa, subject to a number of conditions. Students must:

- maintain enrolment in a CRICOS-registered program
- complete their program within the expected program duration, based on a full-time load unless extenuating circumstances exist
- maintain visa eligibility such as education level, academic progress and attendance
- keep RMIT notified of their address, and any change of address within seven days
- maintain Overseas Student Health Cover (OSHC) for the full duration of their student visa
- have the financial ability to meet all costs in Australia (including travel, tuition and living expenses)
- ensure any family members of school age attend school in Australia
- abide by student visa work limitations
- complete at least six months of study in their principal program (the highest program in a package) unless permission to transfer is granted by the principal provider.

For up-to-date information on student visa conditions, refer to

[www.immi.gov.au/students](http://www.immi.gov.au/students).

A description of the Australian Government's legal framework to ensure quality education and consumer protection for international students is available at

[www.aei.gov.au/regulatory-information](http://www.aei.gov.au/regulatory-information).

## Enrolment Variation and your Student Visa

Enrolment variation refers to any change to your enrolment status, including deferring your program, applying for a Leave of Absence or cancelling enrolment. RMIT is legally required to inform the Department of Immigration and Border Protection (DIBP) of certain enrolment variations and changes. It is important that you understand how changing your enrolment can impact the validity of your student visa.

[www.rmit.edu.au/international/student-visa](http://www.rmit.edu.au/international/student-visa)

## Students Under 18

If you are under the age of 18 at the time of applying for your visa, you must have accommodation and welfare arrangements in place that have been approved by either DIBP or RMIT.

[www.rmit.edu.au/international/under18](http://www.rmit.edu.au/international/under18)

## Students with Families

RMIT welcomes students being accompanied by their families. If you wish to bring your spouse or children to Australia, you are responsible for supporting them financially (including the payment of annual school fees). Full-time education is compulsory for all children in Victoria from the age of five to 15 years. For further information, please refer to your nearest Australian diplomatic post, or the Department of Immigration and Border Protection.

[www.immi.gov.au](http://www.immi.gov.au) or [www.study.vic.gov.au](http://www.study.vic.gov.au)

## Important Fee Information

- For details on additional costs, please visit [www.rmit.edu.au/programs/fees/other](http://www.rmit.edu.au/programs/fees/other). For full-time students, the Student Services and Amenities Fee (SSAF) for 2015 is AU\$286. Refer to [www.rmit.edu.au/programs/fees/ssaf](http://www.rmit.edu.au/programs/fees/ssaf).
- The program and fees information applies to students commencing programs between 1 January and 31 December of selected academic year.
- All fees are quoted in Australian dollars (AU\$) and apply to RMIT University's Australian campuses only.
- Fees are held constant for each calendar year and RMIT may increase the fees by an amount that will not exceed 7.5% each year (subject to rounding). For Higher Education programs, tuition fees are rounded up to the nearest AU\$10.00 per credit point increment, and so the actual fee increase may exceed 7.5%. Similarly, for Vocational Education students the program annual fees are rounded to the nearest AU\$250, and therefore the actual fee increase may exceed 7.5%.
- Fee increases are applied at the beginning of each calendar year; therefore commencing mid-year students will find that the total cost of their program will be slightly higher than if they had commenced in February.
- Fees are invoiced on a study period basis according to the enrolled load for that particular study period except for the following two sectors:
  - English Language is charged at a weekly fee
  - Victorian Certificate of Education is charged a flat semester fee.

## Australian Sanctions Laws

RMIT University is subject to United Nations (UN) and Australian sanctions laws that may affect your eligibility to enrol in particular programs. Applicants from sanctioned countries are encouraged to apply early and allow additional time for their application to be processed. For more information about UN and Australian sanctions laws, including a list of sanctioned countries, please visit

[www.dfat.gov.au/sanctions/sanctions-regimes](http://www.dfat.gov.au/sanctions/sanctions-regimes).
